ABOUT US

Barkom Group is one of the most well known companies in Western Ukraine.

We have own croplands, livestock farms, a meat processing factory, and operate 121 food retail stores.

Over 28 years, the Baran family has grown a small business into a large chain of stores across 10 Ukrainian regions. The family has been passing down the knowledge and experience from generation to generation to obtain products of excellent quality. Today, Barkom employs more than 2,000 people and is considered one of the largest employers in the western region. Despite its growth and expansion, the company remains a family-run enterprise, exemplifying the enduring values and traditions that have always been its hallmark.
Our farm-to-table philosophy ensures
a seamless production cycle, encompassing the entire process from raising livestock on our own land
to crafting meat and sausage products, as well as cultivating wheat and transforming it into bread.

To guarantee the maximum product quality, almost all production processes are automated.
Our extensive selection includes nearly 200 varieties of meat and sausage products, as well as over 100 distinct types of semi-finished meat delicacies.

Our production facilities cover 5,739 m^2.

The maximum daily output is approximately 50 tons of meat processed products.

Each product is made with care, ensuring that only the best food reaches our stores and ultimately your table.
With decades of expertise in manufacturing high-quality meat products using the latest technologies
and highly skilled team, Barkom is a trustworthy partner that deserves your attention.

You can find us under brands Rodynna Kovbaska and Barkom.
We also produce food as private labels for retailers and other corporate clients.
